

Notes:

Please refer to the 2023 Annual Report Map for the location of the areas discussed below.

7. The following list outlined the various areas of disturbance at the mine

Description	Acres
Landowner Borrow area	0.47 (brown)
Grading, shaping, resoiling and seeding complete	8.75 (green)
Slope grading complete	XXX (Cross hatched)

13. The entire disturbed area (8.8 ac.), except the Landowner Borrow Area was seeded and fertilized on April 19, 2022. Commercial fertilizer was applied prior seeding at a rate of 120#/ac - Ammonium Nitrate (33-0-0) and 90#/ac. - Triple Phosphate (0-46-0). At the end of the first growing season the revegetated area is growing as expected.

18. The bond was evaluated in January 2017 and covers 20 acres of reclamation. The \$34,450.00 is adequate to cover the remaining reclamation costs.
