Re: Graff Pit, Permit M-2017-027, Corrective Action – DWR Documentation

Dear Mr. Gardner:

The Division received your email from June 7th related to a Compliance Problem cited in the Division's report from the inspection that was conducted on October 26, 2022. In that email you stated that mining at the Graff Pitt will not likely begin for "a number of years." The status of the corrective action in regard to the cited problem is as follows.

Compliance Problem, Hydrologic Balance: Need for a well permit and other documentation from DWR.

This problem is considered to be resolved.

Please Note: Prior to exposing groundwater, Whitewater Building Materials Corporation must demonstrate compliance with regulations of the Division of Water Resources.

If you have any questions, please contact me at Rob.Zuber@state.co.us or by calling (720) 601-2276.

Thank you,

Robert D. Zuber, P.E.
Environmental Protection Specialist
