**RE: Mid-Continent LST, File No. M-1982-121 , Eastern Production Bench Access**

Dear Mr. Wagner:

On July 7, 2023 the Colorado Division of Reclamation, Mining and Safety (Division) received your plan to access the eastern production bench as required by the Stipulated Agreement. This plan was previously submitted to MSHA and approved on July 7, 2023. The Division accepts MSHA's modification to the 103K Order and approves access to the eastern production bench as outlined in the submitted plan. The Division's Cease-and-Desist Order for the impacted area remains in place with the exception of the areas delineated in this request. The Division would like to emphasize that great care be taken when loading trucks on the bench, especially those of off-site contractors.

If you require additional information, or have questions or concerns, please feel free to contact me.

Sincerely,

Amy Yeldell  
Environmental Protection Specialist
