Hi Glenn.

Per your request, I extended the due dates out 30 days for the Technical Revision requirement listed in the inspection report. The new deadline to submit the revised maps is August 9, 2023. The approval letter is attached for your records.

Keep me informed if you don't hear back from Coffey Engineering. You can submit the Technical Revision with hand drawn maps if you wish. Be sure the boundary matches the survey Coffey generated, and the maps have all the required components listed in Rule 6.3.5. I attached the Rules for Construction Materials for reference.

When you're ready, submit the Technical Revision through epermitting. You'll pay the fee at the end when you submit the application and the revised maps.

Let me know if you have any questions,
