Good afternoon Pat,

As was previously communicated in the attached June 2, 2023 letter and multiple emails from myself and my predecessor Mike Johnson (over the course of many years). We need a completed SF-299 form as a proposal for road right-of-way access on a non-motorized road and to remove unauthorized items from National Forest System land at the entrance to the Rip Van Dam. We will need written proof that Eric Harms is allowing your company to cross his private parcel to access the entrance to the Rip Van Dam mine and haul unauthorized items out.

We also asked for a reclamation plan that will address all of the surface damage on National Forest System land. I cannot provide you with a date for a Special Use Authorization (SUA) permit, because I do not have a complete proposal for road right-of-way access and a reclamation plan that addresses all of the surface damage. Let me know when you can get these materials together and I will process them.

Thank you.

Lauren K.

Hi Lauren

The latest info concerning the reclamation order by DRMS:

I have been in contact with Eric Harms (7/5/23) regarding access to the reclamation site. He informed me that he would not give access to K& B but would give his access approval to Collidemill & mining Inc if I would be willing to be personally liable. I communicated to Eric that the DRMs order was to K& B, not Collidemill & Mining Inc., the property owner. Should I ersonally get involved and agree to be personally liable, how soon (a date please) could you grant me the SUA to perform the reclamation work?

Please advise asap

At farr

Good morning Pat and Dave,

Please let us know via this group email chain, if there are any updates regarding outstanding work for the Rip Van Dam site this week. I am ready and available to screen and process Special Use Authorization proposal information when you send it. Thank you.

Lauren K.

Subject: 06/09/2023 Following Up_Response to Recent Inquires Regarding Use of NFSRs 287.1, 287A, and 287B

Good afternoon Pat,

K&B Mining Company, LLC must comply with DRMS's February 9, 2023 signed Board Order. Please see the attached map and information from the U.S. Geological Survey. The entrance to your Rip Van Dam mine is currently located on federal National Forest System (NFS) land. Likewise, there are some National Forest System Roads (NFSR) sections off of the 287-1, 287A, and 287B area which are not illustrated on the attached Motorized Vehicle Use Map and are not authorized for motorized vehicle use. Based on the information in the case file for this site, in 2022 the private property owner for the Higbee Placer reported to the DRMS and USFS that the miners were accessing a section of 287.1 on his private property as well as an area of 287.1 that the USFS closed off to motorized vehicle use to transport items up to the main entrance of the Rip Van Dam site.

[Rip Van Dam Mine \(MRDS #10018036\) AU, AG \(usgs.gov\)](#)

The USFS is offering to work with you to obtain a Special Use Authorization (SUA) permit for motorized vehicle use for the portion of 287.1 that is currently marked as "road closed" and also to work on the cleanup of items on NFS land. If your staff/reclamation team plans to use access via James Canyon Drive and past the Higbee Placer owner's private property and new gate again. Then the USFS needs proof that the private property owner has authorized you to cross the portion of 287.1 that is on his private property before we can process a SUA permit for site access. I am also aware that you might try to get access to James Canyon Drive via the 768 James Canyon Drive private property or Franklin/Steamboat Lodes. For removal of unauthorized items from NFS land and the required reclamation work.

Has K&B Mining Company, LLC submitted a complete reclamation plan to DRMS? We have not received any information regarding proposed site access or a complete SF-299 form for a SUA from the USFS.

What is your game plan here?

Thank you.

Hi Lauren

Thanks for the follow-up.

I am not quite sure who I am dealing with or who has jurisdiction in this matter. I am a private land owner over which FSR 287-1, 287A, and 287B traverse over thousands of feet.

In the past 90 years, neither I nor the previous owner have ever had access problems to our properties.

K & B Mining LLC, licensed in Colorado on February 2, 2014, as a foreign company was the Operator and NOI permit holder for File No. P-2013-019 for Telluride Gold LLC, a Texas Company that had leased the mining claims from me. Telluride Gold LLC was dissolved on December 31, 2019. The remaining assets at the lease site belonging to Telluride Gold LLC were sold in October 2019 as necessary for the dissolution of the company. These assets exceeding \$160,000.00 were taken from the site in November 2019 when vandals posing as repo hires to locals, torch-cut locks to gates, storage buildings, and portal steel gates.

After December 31, 2016, K & B Mining LLC was dormant and performed no prospecting or other reclamation activities on the site. K & B Mining LLC's reclamation bond with DRMS (Bond No. 0723300273 in the amount of \$11,243.00) is still posted with DRMS.

My role with K & B Mining LLC began on December 31, 2016, by way of a Membership Purchase Agreement between Farr, Telluride Gold LLC, and others when I purchased a controlling interest in Telluride Gold LLC.

Good afternoon Pat and David,

I just wanted to check in and touch base to see if you have had time to review our letter regarding a path forward. Let me know if you have any questions about the content of this letter or the attached SF299 form. If you have any questions or comments to send by email, can you please try to keep them consolidated to this one (1) email chain? That way we can try to keep collaborative path forward information in one consolidated email chain. Random and sporadic emails with off-topic information are distracting/not a good use of anyone's time and does not help parties to move forward in an efficient way.

Thank you for working on this. We are looking forward to working towards resolution. Have a nice day.

Lauren K.

Good afternoon Pat,

Please see the attached letter that the USFS has prepared in response to your recent inquiries to the Boulder Ranger District office. Your company recently inquired about use of National Forest System Roads (NFSRs) 287.1, 287A, and 287B. I am available by cellphone or email if you have any questions about the content of this letter or next steps moving forward. Please call my work cellphone number at 720-708-0988, if you would like to talk by phone.

Thank you, Pat. Have a nice weekend.

Pat Farr
K&B Mining Company, LLC
2601 Willow Park
Richland Hills, TX 76118

via email patmanfarr@gmail.com

Dear Mr. Farr,

On April 10, 2023, K&B Mining Company, LLC associate David Brown contacted the Boulder Ranger District regarding access to the Rip Van Dam Lode (MS 241A) mining claim. The Boulder Ranger District notified Mr. Brown that Forest Service (FS) lands staff were reviewing the information in the case file for this site.

The K&B Mining Company, LLC FS-approved Plan of Operations expired at the end of 2015. Therefore, the road use, operations, and site storage allowed under that Plan are no longer authorized. Several items that were not authorized under the previous Plan were found to be illegally stored onsite. These items must be removed. It was also noted that heavy surface damage is visually apparent at the Rip Van Dam Lode mining claim. This includes damage to a cliff side that has caused soil to fall into a stream area below the cliff and removal of large trees, both at the south entrance to this mining claim.

In addition to the USFS's review of the case file information for this site, the USFS and Colorado Division of Reclamation, Mining and Safety (DRMS) met on April 25, 2023, to compare information regarding the Rip Van Dam Lode mining claim and come to consensus on a path forward.

On February 9, 2023, the DRMS's Mined Land Reclamation Board issued a signed Board Order. This Board Order was issued for failure to maintain legal right of entry and for failure to timely reclaim the affected lands within five years of completion of prospecting activities. The Board Order directs K&B Mining Company, LLC to obtain legal right of entry and to complete reclamation of the affected land. The operator, K&B Mining Company, LLC, has until August 8, 2023, to comply with the Board Order.

K&B Mining Company, LLC, also needs to submit a plan of operation for the outstanding reclamation work to the DRMS for their review and approval.

In order to facilitate site reclamation, the FS will work with K&M Mining Company, LLC, to issue a Special Use Authorization for motorized vehicle use on National Forest System Roads 287.1, 287A, and 287B. Please complete the enclosed SF299 form and submit it to Lauren Kryszczuk at the address above or electronically to lauren.kryszczuk@usda.gov. The permit does not authorize access across private land which will need to be addressed through other channels.

K&B Mining Company, LLC is required to acquire legal access across private land and provide evidence of this access to the USFS before the USFS can process an SF299 proposal for Special Use Authorization. If evidence of legal access across private land is not provided to the USFS, the USFS will not be able to screen and process an SF299 proposal.

In addition, K&B Mining Company, LLC needs to submit a plan of operation for repairing the surface damage to USFS land caused by the mining operations that took place at the Rip Van Dam Lode site.

No further activities or mining operations will be considered by the Forest Service until these items are addressed.

If you have questions and/or need clarification regarding the above information, please contact Lauren Kryszczuk at 720-708-0988 or lauren.kryszczuk@usda.gov.

Sincerely,

**APPLICATION FOR TRANSPORTATION, UTILITY SYSTEMS, TELECOMMUNICATIONS AND FACILITIES
ON FEDERAL LANDS AND PROPERTY**

FORM APPROVED
OMB Control Number: 0596-0249
Expiration Date: 2/28/2023

FOR AGENCY USE ONLY

NOTE: Before completing and filing the application for an authorization (easement, right-of-way, lease, license or permit), the applicant should completely review this package, including instructions, and schedule a pre-application meeting with representatives of the agency responsible for processing the application. Each agency may have specific and unique requirements to be met in preparing and processing the application. Many times, with the help of the agency representative, the application can be completed at the pre-application meeting.

Application Number

Date Filed

1. Name and address of applicant

2. Name and address of authorized agent if different from item 1

3. Applicant telephone number and email:

Authorized agent telephone number and email:

4. As applicant are you? *(check one)*

- a. ☐ Individual
b. ☐ Corporation*
c. ☐ Partnership/Association*
d. ☐ State Government/State Agency
e. ☐ Local Government
f. ☐ Federal Agency

* If checked, complete supplemental page

5. Specify what application is for: *(check one)*

- a. ☐ New authorization
b. ☐ Renewing existing authorization number
c. ☐ Amend existing authorization number
d. ☐ Assign existing authorization number
e. ☐ Existing use for which no authorization has been received *
f. ☐ Other*

* If checked, provide details under item 7

6. If an individual, or partnership, are you a citizen(s) of the United States? ☐ Yes ☐ No

7. Project description *(describe in detail)*: (a) Type of use or occupancy, (e.g., canal, pipeline, road, telecommunications); (b) related structures and facilities; (c) physical specifications *(Length, width, grading, etc.)*; (d) term of days/years needed; (e) time of year of use or operation; (f) Volume or amount of product to be transported; (g) duration and timing of construction; and (h) temporary work areas needed for activity/construction *(Attach additional sheets, if additional space is needed.)*

8. Attach a map covering area and show location of project proposal.

9. State or Local government approval: ☐ Attached ☐ Applied for ☐ Not Required

10. Nonrefundable application fee: ☐ Attached ☐ Not required ☐ To be determined by agency

11. Does project cross international boundary or affect international waterways? ☐ Yes ☐ No *(if "yes," indicate on map)*

12. Give statement of your technical and financial capability to construct, operate, maintain, and terminate system for which authorization is being requested.

13a. Describe other alternative locations considered.

b. Why were these alternatives not selected?

c. Give explanation as to why it is necessary to use or occupy Federal assets (lands or buildings).

14. List authorizations and pending applications filed for similar projects which may provide information to the authorizing agency. (*Specify number, date, code, or name*)

15. Provide statement of need for project, including the economic feasibility and items such as: (a) cost of proposal (construction, operation, and maintenance); (b) estimated cost of next best alternative; and (c) expected public benefits.

16. Describe probable effects on the population in the area, including the social and economic aspects, and the rural lifestyles.

17. Describe likely environmental effects that the proposed project will have on: (a) air quality; (b) visual impact; (c) surface and ground water quality and quantity; (d) the control or structural change on any stream or other body of water; (e) existing noise levels; and (f) the surface of the land, including vegetation, permafrost, soil, and soil stability; and, (g) historic or archaeological resources or properties.

18. Describe the probable effects that the proposed project will have on (a) populations of fish, plant life, wildlife, and marine life, including threatened and endangered species; and (b) marine mammals, including hunting, capturing, collecting, or killing these animals.

19. State whether any hazardous material, as defined in this paragraph, would be used, produced, transported or stored on or in a federal building or federal lands or would be used in connection with the proposed use or occupancy. "Hazardous material" shall mean (a) any hazardous substance under section 101(14) of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), 42 U.S.C. § 9601(14); (b) any pollutant or contaminant under section 101(33) of CERCLA, 42 U.S.C. § 9601(33); (c) any petroleum product or its derivative, including fuel oil, and waste oils; and (d) any hazardous substance, extremely hazardous substance, toxic substance, hazardous waste, ignitable, reactive or corrosive materials, pollutant, contaminant, element, compound, mixture, solution or substance that may pose a present or potential hazard to human health or the environment under any applicable environmental laws. The holder shall not store any hazardous materials at the site without prior written approval from the authorized officer. This approval shall not be unreasonably withheld. If the authorized officer provides approval, this permit shall include (or in the case of approval provided after this permit is issued, shall be amended to include) specific terms addressing the storage of hazardous materials, including the specific type of materials to be stored, the volume, the type of storage, and a spill plan. Such terms shall be proposed by the holder and are subject to approval by the authorized officer.

20. Name all the Federal Department(s)/Agency(ies) where this application is being filed.

I HEREBY CERTIFY, That I am of legal age and authorized to do business in the State and that I have personally examined the information contained in the application and believe that the information submitted is correct to the best of my knowledge.

Signature of Applicant

Date

Title 18, U.S.C. Section 1001, makes it a crime for any person knowingly and willfully to make to any department or agency of the United States any false, fictitious, or fraudulent statements or representations as to any matter within its jurisdiction.

GENERAL INFORMATION
ALASKA NATIONAL INTEREST LANDS

This application will be used when applying for a right-of-way, permit, license, lease, or certificate for the use of Federal lands which lie within conservation system units and National Recreation or Conservation Areas as defined in the Alaska National Interest lands Conservation Act. Conservation system units include the National Park System, National Wildlife Refuge System, National Wild and Scenic Rivers System, National Trails System, National Wilderness Preservation System, and National Forest Monuments.

Transportation utility systems telecommunication installations facility uses for which the application may be used are:

1. Canals, ditches, flumes, laterals, pipes, pipelines, tunnels, and other systems for the transportation of water.
2. Pipelines and other systems for the transportation of liquids other than water, including oil, natural gas, synthetic liquid and gaseous fuels, and any refined product produced therefrom.
3. Pipelines, slurry and emulsion systems, and conveyor belts for transportation of solid materials.
4. Systems for the transmission and distribution of electric energy.
5. Wired and wireless systems for transmission or reception of radio, television, telephone, telegraph, and other electronic signals, and other means of communications.
6. Improved right-of-way for snow machines, air cushion vehicles, and all-terrain vehicles.
7. Roads, highways, railroads, tunnels, tramways, airports, landing strips, docks, and other systems of general transportation.

This application must be filed simultaneously with each Federal department or agency requiring authorization to establish and operate your proposal.

In Alaska, the following agencies will help the applicant file an application and identify the other agencies the applicant should contact and possibly file with:

Department of Agriculture
Regional Forester, Forest Service (USFS)
P.O. Box 21628
Juneau, Alaska 99802-1628
Telephone: (907) 586-7847
(or a local Forest Service Office)

Department of the Interior
Bureau of Indian Affairs (BIA)
Alaska Regional Office
709 West 9th Street
Juneau, Alaska 99802
Telephone: (907) 586-7177

Department of the Interior
Alaska State Office
Bureau of Land Management
222 West 7th Avenue #13
Anchorage, Alaska 99513
Public Room: 907-271-5960
FAX: 907-271-3684
(or a local BLM Office)

U.S. Fish & Wildlife Service (FWS)
Office of the Regional Director
1011 East Tudor Road
Anchorage, Alaska 99503
Telephone: (907) 786-3440

National Park Service (NPS)
Alaska Regional Office
240 West 5th Avenue
Anchorage, Alaska 99501
Telephone: (907) 644-3510

Department of Transportation
Federal Aviation Administration
Alaska Region AAL-4, 222 West 7th Ave., Box 14
Anchorage, Alaska 99513-7587
Telephone: (907) 271-5285

NOTE - The Department of Transportation has established the above central filing point for agencies within that Department. Affected agencies are: Federal Aviation Administration (FAA), Coast Guard (USCG), Federal Highway Administration (FHWA), Federal Railroad Administration (FRA).

OTHER THAN ALASKA NATIONAL INTEREST LANDS

Use of this form is not limited to National Interest Conservation Lands of Alaska.

Individual department/agencies may authorize the use of this form by applicants for transportation, utility systems, telecommunication installations and facilities on other Federal lands outside those areas described above.

For proposals located outside of Alaska, applications will be filed at the local agency office or at a location specified by the responsible Federal agency.

SPECIFIC INSTRUCTIONS
(Items not listed are self-explanatory)

- 7 Attach preliminary site and facility construction plans. The responsible agency will provide instructions whenever specific plans are required.
- 8 Generally, the map must show the section(s), township(s), and range(s) within which the project is to be located. Show the proposed location of the project on the map as accurately as possible. Some agencies require detailed survey maps. The responsible agency will provide additional instructions.
- 9, 10, and 12 The responsible agency will provide additional instructions.
- 13 Providing information on alternate locations in as much detail as possible, discussing why certain locations were rejected and why it is necessary to use Federal assets will assist the agency(ies) in processing your application and reaching a final decision. Include only reasonable alternate locations as related to current technology and economics.
- 14 The responsible agency will provide instructions.
- 15 Generally, a simple statement of the purpose of the proposal will be sufficient. However, major proposals located in critical or sensitive areas may require a full analysis with additional specific information. The responsible agency will provide additional instructions.
- 16 through 19 Providing this information with as much detail as possible will assist the Federal agency(ies) in processing the application and reaching a decision. When completing these items, you should use a sound judgment in furnishing relevant information. For example, if the project is not near a stream or other body of water, do not address this subject. The responsible agency will provide additional instructions.

Application must be signed by the applicant or applicant's authorized representative.

Note - Filings with any Interior agency may be filed with any office noted above or with the Office of the Secretary of the Interior, Regional Environmental Officer, P.O. Box 120, 1675 C Street, Anchorage, Alaska 99513.

EFFECT OF NOT PROVIDING INFORMATION

Disclosure of the information is voluntary. If all the information is not provided, the proposal or application may be rejected.

DATA COLLECTION STATEMENT

The Federal agencies collect this information from proponents and applicants requesting a right-of-way, permit, license, lease, or certification for use of Federal assets. The Federal agencies use this information to evaluate a proponent's or applicant's proposal to use Federal assets.

BURDEN STATEMENT

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0596-0249. The time required to complete this information collection is estimated to average 8 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. The authority to collect this information is derived from 47 U.S.C. 1455(c)(3) and 16 U.S.C. 3210.

USDA NONDISCRIMINATION STATEMENT

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or part of an individual's income is derived from any public assistance. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotope, etc.) should contact USDA's TARGET Center at 202-720-2600 (voice and TDD).

To file a complaint of discrimination, write USDA, Director, Office of Civil Rights, 1400 Independence Avenue, SW, Washington, DC 20250-9410 or call toll free (866) 632-9992 (voice). TDD users can contact USDA through local relay or the Federal relay at (800) 877-8339 (TDD) or (866) 377-8642 (relay voice). USDA is an equal opportunity provider and employer.

The Privacy Act of 1974 (5 U.S.C. 552a) and the Freedom of Information Act (5 U.S.C. 552) govern the confidentiality to be provided for information received by the Forest Service.
