Legend

- Yankee Gulch Lease Boundary
- Reclaimed Well—
  Plugged and Abandoned,
  Well Skid and Lateral Piping Removed,
  Pad Contoured, Graded, and Seeded
- Earthen Pad Footprint—
  (no development occurred on pad)
  Pad Contoured, Graded, and Seeded
- Well 20-3—Pilot Plant Well,
  Plugged, Abandoned, and Reclaimed
- Ground Water Monitoring Well
  Plugged, Abandoned, and Reclaimed*
- Subsidence Monitoring Point
- Interplant Pipeline
- Found Brass Cap
- Section Line
- Surface Contour (ft)**
- Former test mine pond area was closed in fall 2006. The two ponds were dewatered then solids removed. The approximately 8 acres were recontoured then broadcast seeded in Dec. 2006. In Oct. 2007 the area was drill seeded and native rock check dams were constructed in the bottom of the draw along the length of the disturbed area.
- Test Mine Pond Solids Storage Cell on ridge near 28-21. The excavation was filled, then closed, and recontoured. The approximately 2 acre area was broadcast seeded in Dec. 2006 then drill seeded again in Oct. 2007.
