**RE: Roadside Portals Mine, C-1981-041
2nd Quarter 2023 Discharge Monitoring Reports Review**

Dear Ms. Hammond,

The Colorado Division of Reclamation, Mining and Safety (the Division) has finished reviewing the 2023 2nd Quarter Discharge Monitoring Reports (DMRs). The reports were received on; May 10, 2023 (April report), June 8, 2023 (May report) and July 11, 2023 (June and 2nd quarter reports). The reports cover the time period of; April 1, 2023 through June 30, 2023. The Division finds the reports to be in compliance with Rule 4.05.13(2).

There are two outfalls associated with the CO-0027146 NPDES permit, Outfall 002 and Outfall 016. During the months of April, May and June no flow was recorded out of Outfall 002. No exceedances occurred at this location. Outfall 016 discharged during all three months of the 2nd quarter. The reports indicate that no exceedances occurred for the reported parameters during the 2nd quarter. No other concerns were identified during this time period.

This concludes the Division's review of the 2nd Quarter 2023 Discharge Monitoring Reports for the Roadside Portals Mine. If you have any questions, feel free to contact me.

Sincerely,

Clayton Wein
