RE: Request for Extension of Decision Date for 112 Permit Application
SITE: West Farm Reservoirs, DRMS Permit # M-2022-048

Dear Mr. Scott:

The applicant, L.G. Everist, Inc., requests to extend the decision date of the 112 Permit Application for West Farm Reservoirs, DRMS Permit # M-2022-048. The applicant would like to extend the decision date for the above-named permit application for another few weeks - from its current due date of July 31, 2023 to August 18, 2023.

This extension will give both the applicant and the Division additional time to finish the adequacy review and response, and also to finalize the bond calculations. If more time is needed, we will file another extension request prior to the newest decision due date of August 18, 2023.

If you have any questions regarding this extension request, or any questions as you are reviewing the adequacy response package, feel free to reach out to Steve O'Brian or me. Thanks.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Lmshults', is written over the word 'Sincerely'.
