RE: Broken Arrow Investments, LLC – File No. M-2008-017 Derr Pit – Summary for July Water Level Reporting

Dear Mr. Scott,

Broken Arrow Investments, LLC is providing this summary letter to discuss and provide information in regard to the July off-site an on-site monitor wells and provide the dewatering volumes pumped for June.

During the month of June a total of 0.0 acre-feet was pumped and discharged into the on-site recharge ponds within the Derr Pit.

AgPro was not able to get all the normal monthly readings/measurements on all of the off-site wells for the July readings as the Hoffner #2 Irrigation Well was being pumped for irrigation as well as the Koehler Irrigation Well. As discussed in our technical revision letter there are some on-site wells that were removed due to the slurry wall construction and those wells are no longer in place. Monitor Well 11 is no longer accessible and neither is Monitor Well 1. The on-site monitor wells saw an increases in the elevation of the water levels. The water level elevations in the monitor wells on the Phase 1-4 portion of the pit went up on the south side by 2.15 feet and up by 1.56 feet on the north side. The water level elevations in the monitor wells on the upper terrace of the permit area increased by 1.36 feet for MW-14, increased by 0.72 feet for MW-15, increased by 1.20 feet for MW-16, increased by 0.71 feet for MW-17, and increased by 0.87 feet for MW-18.

Please give me a call at (970) 566-5090 or send an e-mail to discuss further.

Sincerely,

Kelly Hodge, Broken Arrow Investments, LLC

9/8/22 MW-17 Repaired and Top of Well is at Elevation 4670.5

Mr. Dave Bliss 40738 Poudre Canyon Bellvue, CO 80512

Dear Mr. Bliss:

AGPROfessionals' staff have been monitoring groundwater elevations on behalf of IHC Scott at your property. We perform this monitoring on the second Thursday of each month. Attached is the elevation we recorded on July 13, 2023.

ldentifier	Depth to Water from Ground Surface
Bliss Irr	49.02

Has the 2-foot trigger point for two consecutive months been met?

☐ Yes

⊠ No

Please find the attached table and graph representing the data collected to this date. Please do not hesitate to contact me regarding these activities.

Sincerely,

Elpaid Hegyl

Elijah Adlesperger Field Technician

970-571-9038

- 1) Graph displays Depth to Groundwater (lower depth to groundwater reading means higher water table elevation).
- 2) Trigger point is described in Settlement Agreement.
  3) Since Historical Data was not established until September 2020, a year-to-date running average was used to compute historical average. As of September 2020, the historical average is computed as described in Settlement Agreement.

Mr. Rocky Francis PO Box 843 Greeley, CO 80632

Dear Mr. Francis:

AGPROfessionals' staff have been monitoring groundwater elevations on behalf of IHC Scott at your property. We perform this monitoring on the second Thursday of each month. Attached is the elevation we recorded on July 13, 2023.

- 1) Graph displays Depth to Groundwater (lower depth to groundwater reading means higher water table elevation).
- 2) Trigger point is described in Settlement Agreement.
- 3) Since Historical Data was not established until September 2020, a year-to-date running average was used to compute historical average. As of September 2020, the historical average is computed as described in Settlement Agreement.

Mr. Rocky Francis 665 Balsam Ave Greeley, CO 80631

Dear Mr. Francis:

AGPROfessionals' staff have been monitoring groundwater elevations on behalf of IHC Scott at your property. We perform this monitoring on the second Thursday of each month. Attached is the elevation we recorded on July 13, 2023.

Identifier	Depth to Water from Ground Surface
Taylor Dom	13.62

Has the 2-foot trigger point for two consecutive months been met?

⊠ Yes

□ No

A trigger level was reached for your domestic well, but a new submersible pump and motor were installed and lowered to the bottom of the well as part of the improvements to your well in January of 2020. The improvements were performed by Quality Well and Pump. Typically, well levels in the area come up when fields start irrigating and the runoff comes down the Section 3 ditch on the west side of the Loloff Pit and then turns to the east crossing Balsam Avenue just south of your property. IHC Scott/Mill Iron Mining is not dewatering and the slurry wall at the Derr Pit passed the State Engineer's requirements for the leak tests. AGPROfessionals' staff will continue to monitor your well on the second Thursday of each month.

Sincerely,

Elijah Adlesperger Field Technician

970-571-9038

- 1) Graph displays Depth to Groundwater (lower depth to groundwater reading means higher water table elevation).
- 2) Trigger point is described in Settlement Agreement.3) Since Historical Data was not established until September 2020, a year-to-date running average was used to compute historical average. As of September 2020, the historical average is computed as described in Settlement Agreement.

Mr. Brian Murata 29485 WCR 43 Greeley, CO 80631

Dear Mr. Murata:

AGPROfessionals' staff have been monitoring groundwater elevations on behalf of IHC Scott at your property. We perform this monitoring on the second Thursday of each month. Attached is the elevation we recorded on July 13, 2023.

Identifier	Depth to Water from Ground Surface
Murata #1 Irr	44.61

Has the 2-foot trigger point for two consecutive months been met?

☐ Yes

⊠ No

Please find the attached table and graph representing the data collected to this date. Please do not hesitate to contact me regarding these activities.

Sincerely,

**Derr Pit Off-Site Well Readings**
