Tim Cazier, Environmental Protection Specialist
CO Division of Reclamation, Mining and Safety
1001 E 62nd Avenue
Denver, CO 80216

RE: Tallahassee Resources Exploration P-2021-019 MD-1
Response to Notice of Deficiencies Dated July 25, 2023

Dear Mr. Cazier,

Please accept the following information as response to the Division's completeness review.

- 1) No information is intended to be confidential; therefore, Form 1 is not included in the submission.
- 2) The referenced drawing was inadvertently included in the paper copy of the application. It is not part of the MD-1 application.
- 3) Drill holes will be marked with an aluminum cap after abandonment. This allows the collar to be found after reclamation has taken place.
- 4) The maximum number of planned holes is 20.
- 5) The applicant accepts the Divisions bond estimate of \$129,233 and understands that upon approval of MD-1, a surety reduction request will need to be submitted.

Please feel free to contact me directly with any questions.

Respectfully submitted,

Angela M. Bellantoni

Angela M. Bellantoni Ph.D.
