Re: Windsor East Mine; File No. M-2022-042; Application Extension Response

Dear Julie Mikulas:

On July 10, 2023 the Division received baseline water quality results for the first three quarters of monitoring well data at the Windsor East Mine, Permit No. M-2022-042. Please submit the fourth and fifth quarter data from these wells to the Division as soon as they become available. As a reminder, a Technical Revision will be required to set updated constituent standards for the site's long term monitoring plan.

If you have any questions, please contact me by email at hunter.ridley@state.co.us or by phone at (720)868-7757.

Sincerely,
Hunter C. Ridley
