Lee,

The deadline for the submission of the Technical Revision application has been extended to October 9, 2023, as you requested.

Also, you asked for some examples of mine plan/reclamation plan maps from other mines... a few are attached. As you can see, different operators take different approaches, but the key elements are spelled out in the rules (I copied the relevant rules in the text of my July 7 email, so won't repeat them here).

I appreciate your attention to this site - let me know if any other questions come up.

Leigh Simmons
