Hi Hunter,

In order to complete our review for the above referenced undertaking, we request additional information on the location of proposed access routes as well as any staging areas. Please provide a map showing the location of the proposed boreholes as well as access routes and staging areas for our review.

We also understand that a class III cultural resource inventory was completed as part of your historic property identification efforts for the undertaking. We request that a copy of the results of this inventory are provided for our review.

Please let me know if you have any questions or would like to discuss this over the phone.

Thank you,

--

Matthew Marques
