M-1977-129 acreage is off. The Operator identified that we had the permit acreage wrong. After doing some digging it looks like the permit table for AR-6 is the source of the error. It should have released 97.34 ac for each of the edited fields. Operator has stated they have 430.68 ac. So it's just rounding errors.

On a similar note the affected and private surface are also off since they didn't get edited with AR-4.
