To: Graham Roberts <graham.roberts@trappermine.com>, Robin Reilley - DNR <robin.reilley@state.co.us>

Good Afternoon Mr. Roberts,

Please find the Divisions' Review of the June 2023 DMRs for Trapper Mine. The DMRs included monthly, quarterly, acute and chronic WET testing for Trapper Mine Inc. No concerns were noted.

Thank you for your timely submission.

**Re: Trapper Mine (Permit No. C1981-010)**  
**Review of June and Q2 2023 Discharge Monitoring Reports**

Dear Mr. Roberts:

The Division has received and reviewed the June and quarter 2, 2023 Discharge Monitoring Reports (DMRs), including the Chronic and acute Wet testing results for the Trapper Mine. The DMR's were received by the Division on 26 July 2023 electronically. Thank you for your timely submittal of this information. Trapper submits DMRs to the Division, in accordance with Rule 4.05.13(2)(a)(iii).

Trapper reported the following outfalls discharged in June:

- Johnson System Pond #10, NPDS 10
- No Name Pond #5 NPDES 002
- East Pyeatt Pond #2, NPDES 011
- East Middle Flume Pond, NPDES 21
- Deal Pond, NPDES 22

Trapper reported that none of the outfalls requiring chronic or acute WET testing discharged. Quarterly DMRs for outfalls 001, 002, 011, indicated that no parameters were exceeded.

The Division does not have any questions, concerns or further comments at this time. If you have any questions or need additional information, please contact me.

Sincerely,

Robin Reilley, M.S. GISP
