Re: King II Mine
Pond Quarterly Inspection
1st Quarter 2023

Dear Ms. Wein,

An inspection of the pond at the King II mine was performed on May 4, 2023, for the 2nd quarter of 2023. The pond embankment, in-slopes, and spillway all appeared stable with no evidence of slumping, settling, or excessive erosion. The pond embankments were well-vegetated. The pond was holding water, no discharge was occurring and the discharge outlet was observed to be clear of debris. All features appeared to be in place and functioning as designed.

Please call Michael Dickson at (970) 385-4528 x 6540 if you have any questions or comments.

Sincerely,

Michael Dickson
