**Re: Warren Gravel Pit, Permit M-2012-024,
Corrective Action Extension (well permit and water rights documentation)**

Dear Mr. Gardner:

During my inspection in October 2022, I identified several problems that require corrective actions. Regarding the need for documentation related to a well permit and water rights, I am extending the decision due date to October 9, 2023. This is to allow more time for you to secure a contract with the Bureau of Reclamation. My understanding is that you are very close to securing this contract.

If you have any questions, please contact me at Rob.Zuber@state.co.us or by calling (720) 601-2276.

Thank you,

Robert D. Zuber, P.E.
Environmental Protection Specialist
