

Interoffice Memorandum

To: Tim Cazier
From: Rob Zuber *RDZ*
Cc: Michael Cunningham
Date: September 19, 2023
Subject: Application for Bernhardt Sand and Gravel Pit (M-2023-025),
Request for assistance with geotechnical review

Hi, Tim -

I found the Bernhardt Sand and Gravel Pit (Bernhardt) application complete on September 14, 2023. I am performing the adequacy review for this new 112 application, and I have placed the application on the V drive: V:\Coal\RDZ\Bernhardt Pit.

I am requesting your assistance with the geotechnical portion of the application, in particular pages 202 - 291 of the pdf file on the V: drive. I will ask the applicant for structure agreements, so please ignore for now the portion of the analysis related to impacts on structures and focus on the general stability related to Rule 6.5. The applicant provided Galena files, and they are in a subfolder on the V: drive if you want to review them.

Please submit a memorandum to me by November 3, 2023, if possible. If you need more time, please let me know. Also, do not hesitate to contact me with questions about the application. If necessary, I can put you in contact with the applicant and/or his consultant.

Many thanks,
Rob
