RE: Nissan Farm Resource, DRMS Permit M2003-001, Incomplete Application for Transfer of Permit and Succession of Operators (SO3)

Mr. Oestreich:

On September 13, 2023, the Division of Reclamation, Mining and Safety received the Application Form and \$144 fee for Transfer of Mineral Permit and Succession of Operators from Bestway Concrete Company to BURNCO Colorado, LLC for Nissan Farm Resource, Permit M2003-001. The following items are required for the application to be considered complete for processing:

1. An original Affidavit of Authority signed by Ken Krowiec and properly notarized. On the submitted document, the date wasn't filled out in the notary section; this invalidates the signatures.
2. An original Affidavit of Authority form signed by Travis Coates and properly notarized
3. An original Affidavit of Authority form signed in the name "**Christopher** Oestreich" and properly notarized. (The current Affidavit on file is for "Chris Oestreich" but the most recently documents are in the name "Christopher Oestreich.")

Please provide the above required materials within 60 days (no later than November 20, 2023). All completed permit documents are required to be submitted for consideration of your Request for Transfer of Mineral Permit and Succession of Operators Application. If after 60 days, outstanding items remain, your application will be denied and the file terminated. The Division reserves the right to further supplement this document with additional items and details as necessary.

Please contact Eric Scott (303) 229-9414 or by email at eric.scott@state.co.us, or DRMS Financial Assurance Specialist Sara Stevenson-Benn at Sara.Stevenson-Benn@state.co.us if you have any questions.

Sincerely,

Eric Scott, Environmental Protection Specialist
