RE: Final Closure of Carter-Raymond Exploration P-2019-011 and request for release of Financial Warranty to CRG Mining LLC

Dear Mr. Czapla,

I am writing to request the release of the Financial Warranty currently held by the state for the Carter-Raymond Exploration NOI of \$19,575.00 to CRG Mining LLC. We have not performed any exploration since the fall of 2022 and have no intentions of doing anything further. The only exploration activities that we did were to drill 9 surface drill holes. These holes were sealed and reclaimed.

Please let me know if you have any questions or need more data. I can be reached at 970-417-3311 or email: jwilkinson@crgmining.com

Sincerely,

Jake Wilkinson
