RE: WILDCAT MINING CORPORATION-IDAHO MINE

SUNRISE LLC

**RECLAMATION NOT COMPLETED INCORDANCE WITH
COLORADO DIVISION OF RECLAMTION MINING AND SAFETY
APPROVED RECLAMATION PLAN**

SUNRISE LLC

**BREACH OF IDAHO MINE ACCESS AGREEMENT
DATED JANUARY 11, 2017**

Dear Mr. and Mrs. Jack and Barbara Nielsen,

Sunrise LLC owner of the May Day mine and permit holder of the Mayday Idaho Mine permit M-1981-185 failed to comply with the May Day Mine permit approved reclamation plan. Sunrise made a commitment to retain the Idaho Mine access road in a condition to be used for future land uses. The access road recently used by Sunrise Mining from Idaho's mine entrance to the Idaho Mine warehouse to obtain is **NOT** useable for Wildcat Mining Corporation's (WMC) future land uses.

As pointed out in Wildcat Mining Corporation reclamation and bond release objection letter, Sunrise LLC has **not complied** with CDRMS reclamation requirements.

In addition, WMC owner of the Idaho Mine claims entered into an access agreement with Sunrise LLC owner of the May Day mine claims whereby Sunrise LLC is to perform site maintenance, exploration,

regulatory compliance and temporary storage of site equipment pursuant to Colorado Division of Reclamation Mining and Safety (CDRMS) May Day Idaho Mine permit M-1981-185. Sunrise LLC, as the mining permittee owner of the May Day Idaho bond is obligated to maintain mine reclamation bonds until compliance is documented.

Sunrise LLC and WMC entered into an agreement on January 11, 2017, whereby Sunrise LLC would be authorized to perform water sampling and reclamation activities on WMC's Idaho property in accordance with a signed notarized agreement (See Attachment A). Specific sections from the agreement follows:

It is understood Sunrise Mining, LLC and La Plata Land Company will provide Wildcat Mining Corporation at least 72 hour notice and a signed visitor's agreement for site access to the Idaho Mine Site. Wildcat Mining Corporation, Idaho Mine Patented claims are summarized in the January 11, 2021, agreement. (See Attachment B)

The signed and notarized agreement states:

- 1. "Grant of License. Licensors hereby grants to Licensee and persons, consultants, and/or contractors authorized by Licensee (collectively, "Authorized Parties") a non-exclusive license to access the May Day Mine Property for purposes of site maintenance, exploration, regulatory compliance, and temporary storage of site equipment. The access license shall be over and across the real property owned by Licensors and located in La Plata County, Colorado, more particularly described in Exhibit A attached hereto ("Property").**

6. "Repair and Restoration. Licensee covenants and agrees that it shall promptly repair any damage, injury or destruction to any portion of Property that may be caused by or result from Licensee's use of the Property, and Licensee shall restore the Property to substantially the same condition as existed prior to any such damage, injury or destruction."

Sunrise LLC. under the signed agreement conducted water sampling and site maintenance activities between January 11, 2017, through January 11, 2023. . During WMC Mining October 2022 site visit, WMC's personnel and business associates identified WMC road leading from the May Day claims is damaged and not useable to support future land uses.

Wildcat Mining Corporation is requesting the Idaho Mine access road be restored to pursuant to CDRMS reclamation and the signed WMC agreement ***"Licensee shall restore the Property to substantially the same condition as existed prior to any such damage, injury or destruction.."***
