## INTEROFFICE MEMORANDUM

TO: Rob Zuber

FROM: Hunter Ridley

DATE: 9/28/2023

**SUBJECT: 25th Avenue Site, M-2002-020, Technical Revision No. 3  
Cache la Poudre River Bank Stabilization**

Rob,

On September 28, 2023, the Division of Reclamation, Mining and Safety (Division) received the Technical Revision No. 3 application (TR-03; see enclosed) from the City of Greeley for the 25th Avenue Site. Past high-flow events have scoured the Cache la Poudre embankment adjacent to the 25th Avenue Site Pond A reservoir. Thus, the purpose of TR-03 is to revise the reclamation plan to include an area of river bank stabilization. The bank stabilization project will install protection measures to reduce or eliminate erosion at the Pond A reservoir location. These measures will protect the existing 25th Avenue Site facilities.

I would like to request your assistance in reviewing this Technical Revision application. The current decision date is set for October 30, 2023. I would like to complete my preliminary adequacy by mid-October, so please submit a memorandum to me by October 16, 2023, if possible. If you need more time, let me know. Feel free to reach out if you have any additional questions or concerns.

Sincerely,  
Hunter C. Ridley

Encl: Technical Revision No. 3 (TR-03), received on September 28, 2023

Cc: Michael Cunningham, DRMS
