Re: Inspection Problems Abated; Enslinger Pit No. M-2002-068;

On October 13, 2023 the Division of Reclamation, Mining and Safety (Division) received a text message containing photos that indicate that the corner posts have been replaced onsite and that the erosion gully in the north-eastern corner of the pit has been repaired. The photos are enclosed in this document.

The Division considers the inspection problems from the May 25, 2023 inspection: **abated**.

If you have any questions, please send me an email at amber.gibson@state.co.us or call me at 720-836-0967.

Sincerely,

Amber M. Gibson
