Re: Extension Request Approval No.1, Installation of Underdrain and Submittal of As-Builts, Due Date, Home Office Mine, Permit File No. M-1977-439

Ms. Mikulas:

On October 16, 2023, the Division of Reclamation, Mining and Safety (Division/DRMS) received your request to extend the due date for installation of underdrain and submittal of as-builts, from the Division's Problem Citation letter dated August 17, 2023 for the Home Office Mine, Permit File No. M-1977-439, from October 16 to December 31, 2023.

According to your letter underdrain construction activities are to begin on October 19, 2023. These activities will be to install a shorter length (200 feet) of underdrain pipe in order to reduce the groundwater level in HO-01 below the four foot trigger level and avoid moving groundwater to the east where it may become exposed at the surface.

The Division will approve the extension with the following stipulations:

1. The Division will be notified in writing when underdrain construction begins, failure to begin construction within a week of this letter may result in the Division pursuing an enforcement action,
2. The Division will be notified in writing when underdrain construction activities are complete,
3. Submit to the Division a groundwater level measurement of HO-01 a minimum of 5 days after installation but no more than 10 days after installation, and
4. The final as-built drawings will be submitted as a Technical Revision no later than December 31, 2023.

The Division hereby approves the extension request to December 31, 2023.

If you need additional information or have any questions, please contact me by telephone at **303-866-3567 x8114**, or by email at patrick.lennberg@state.co.us.

Sincerely,

A handwritten signature in blue ink, appearing to read "Patrick Lennberg". The signature is fluid and cursive, with the first name "Patrick" and the last name "Lennberg" clearly distinguishable.
