Denver, CO 80203

Dear Tim Cazier,

Reference: Pikeview Quarry (M-1977-211) Technical Revision RE-22 Extension Request

In response to the Preliminary Adequacy Review of Technical Revision (RE-22) for the Pikeview Quarry operation (M-1977-211) received on October 9, 2023, Riverbend Industries (RBI) requests a 29-day extension to the review period for RE-22. This extension is intended to provide Colorado Division of Reclamation, Mining, and Safety (CDRMS) with the additional time needed to review the permit technical revision documents and would change the date of the decision of CDRMS from October 19, 2023 to November 17, 2023.

This request is intended to only extend the final decision date by 29 days to accommodate the necessary review of the technical revision documents; RBI does not waive the automatic approval provision provided in Construction Materials Rule 1.4.13(1).

Please do not hesitate to contact me or our Stantec consultant, Paul Kos, if you have any questions.

Regards,

Jerald Schnabel
