Re: Change of Operator Representative on Permits

Dear Mr. Czapla,

CRG Mining, LLC and ALSH, LLC, who are the permitted operators of several mines, wish to revise the named contact individuals for these permits. These changes will reflect an updated permitting contact and inspection contact, who we wish to be consistent for all six of our permitted operations.

The permitting contact should be changed to Joseph Harrington, phone number 720-883-7200. The inspection contact should be Jake Wilkinson, phone number 970-417-3311. The address of these permittees should remain as 510 S. Wisconsin, Gunnison, CO 81230.

The following six permits should be updated with the contact information given above:

M-1982-020	Sooner Lucky Strike Mine and Mill	ALSH, LLC (permittee)
M-1987-143	Gold Links Mine	CRG Mining, LLC (permittee)
M-2016-083	Upper Gold Links Mine	CRG Mining, LLC (permittee)
M-2016-084	Sacramento Access Tunnel	CRG Mining, LLC (permittee)
M-2020-013	Raymond Mine	CRG Mining, LLC (permittee)
M-2020-014	Carter Mine	CRG Mining, LLC (permittee)

Thank you for helping with these updates. Please contact either of the contacts named above if there are questions or concerns.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Jake Wilkinson', with a long horizontal flourish extending to the right.

Jake Wilkinson
CRG Mining, LLC and ALSH, LLC

Ec: Joseph Harrington, MineWater LLC
Stephen Baghdadi, ALSH, LLC
