***RE: Meeker Pit, File No. M-1976-038, Comments Regarding 112c Regular Construction  
Materials Application - Amendment (AM-3)***

Dear Ms. Conrado:

On October 26, 2023 the Division of Reclamation, Mining and Safety (Division) received comments regarding the above referenced application from State Historic Preservation Office (SHPO). Please add this document (attached) to your permit file records.

If you require additional information, or have questions or concerns, please feel free to contact me.

Sincerely,

***Amy Yeldell***  
Environmental Protection Specialist

Re: Meeker Pit – File No. M-1976-038, Meeker Sand & Gravel, Inc. Amendment Application (AM-3)  
(HC#15507)

Dear Ms. Yeldell:

Thank you for your correspondence received by our office on October 12, 2023 requesting comment for the referenced amended permit application notification. We understand that the applicant had to renote the permit amendment 2, and therefor amendment 2 was terminated and reassigned to amendment 3.

Based on the search area indicated in the maps that our office received on July 13, 2023, a search of our database indicates 0 site and 0 survey were located within or adjacent to the search area. If any site, district, building, structure, object, or survey area was identified within the search area, a list of sites is attached to this letter. No National or State Register listed or nominated properties were identified within the proposed permit area. Please note, as the permit amendment area and most of Colorado has not been inventoried for cultural resources, our files contain incomplete information. Consequently, there is the possibility that as yet unidentified cultural resources exist within the proposed permit amendment area. The requirements under CRS 24-80 part 13 apply and must be followed if human remains are discovered during ground disturbing activities.

Please note that our comments should not be interpreted as concurrence under the National Historic Preservation Act or any other environmental law or regulation. It is the responsibility of any federal agency involved to meet the requirements of Section 106 as set forth in 36 CFR Part 800 titled “Protection of Historic Properties”. This includes not only reasonable and good faith identification efforts of any historic properties located within the area of potential effects, but determining whether the undertaking will have an effect upon such properties. The State Historic Preservation Office, Native American tribes, representatives of local governments, and applicants for federal permits are entitled to consultative roles in this process.

If you have any questions or if we may be of further assistance, please contact Holly McKee-Huth, Cultural Resource Information/Section 106 Compliance Specialist at (303) 866-4670 or [holly.mckee@state.co.us](mailto:holly.mckee@state.co.us).

Sincerely,

Dawn DiPrince  
State Historic Preservation Officer
