**Re: Mountain Coal Company, LLC, West Elk Mine; Permit No. C-1980-007;
Minor Revision No. MR-479 Box Canyon North Waterline**

Dear Mr. Simmons:

Mountain Coal Company, LLC (MCC) submits this letter, application, drawing, maps, and permit text for Minor Revision No. 479 to place waterline and a booster pump to tie the Box Canyon North drill hole to the main mine water tank.

MCC will place approximately 850 feet of 8" HDPE pipe from the Box Canyon North pump house north to tie into an existing 8" HDPE line. The pipe will be placed at a depth of 5' and will be buried together with power and fiber. In addition, a 20' x 30' building and concrete pad will be placed to house the booster pump.

Please contact me with any questions regarding this submittal.

Sincerely,

Jessica Wilczek, P.E.
Manager of Engineering and Environmental Affairs
