**Re: Surety Adjustment Approval, Revision No. SA7
Cresson Project, Permit No. M-1980-244**

Dear Lori Smith,

On November 6, 2023 the Division of Reclamation, Mining and Safety (Division) approved your Surety Adjustment SA7 submitted to our office on August 28, 2023, addressing the following:

Water Truck Storage Building

The SA7 submittal was determined to be in compliance with the requirements set forth in Technical Revision TR115. The terms of the SA7 approved by the Division are hereby incorporated into Permit No. M-1980-244. All other conditions and requirements of Permit No. M-1980-244 remain in full force and effect.

The Division has reviewed the change associated with SA7 for impacts to the financial warranty and determined that this change requires an additional \$3,413.99 increase to the current reclamation liability. Therefore, the current required surety has increased to \$208,778,534.66 and the surplus warranty is now at \$712,653.34 with the approval of SA7.
