Re: Permit No. M-1980-244; Cripple Creek & Victor Gold Mining Company; Cresson Project; Surety Accounting Update SA8 to Technical Revision 115 – Ironclad Sidewalks and Cement Pad Project

Dear Mr. Russell:

Newmont Corporation's Cripple Creek and Victor Gold Mining Company (CC&V) hereby provides the Division of Reclamation, Mining and Safety (DRMS) Surety Accounting Update SA8 to Technical Revision (TR) 115; Ironclad Sidewalks and Cement Pad Project.

Background:

This submittal is to propose installation of sidewalks along the buildings located at the Ironclad Facility and installation of a cement pad to accommodate a new haul truck simulator. Installation of these sidewalks and pad will make it easier to clear snow in the winter months. Please see the location map in Attachment 1.

There will be a total of four areas for the sidewalks around the Ironclad facility and one area for a pad to accommodate the new simulator. Please see below.

- Area 1 – 2 slabs - 54'X4' and 6'X4'
- Area 2 – 1 slab - 113'X4'
- Area 3 – 1 slab - 240'X4'
- Area 4 – multiple slabs totaling - 225'X4'
- Area 5 – 10'X24'X6"

Areas 1-4 will be 4-inches thick except for the exposed edges that will be 8-inches thick. Area 5 will be 6 inches thick. All areas will meet the 3500 psi specifications.

Stormwater Controls:

Stormwater management for the area will be in accordance with CC&V's Stormwater Management Plan, utilizing best management practices.

Schedule:

Construction will start immediately upon DRMS and Teller County approval.

Financial Warranty:

The estimated reclamation cost for the sidewalks and pad is \$7,491.55. This brings the total liability amount to \$208,782,612.22, which CC&V will account for out for the surplus financial warranty. This will bring the surplus financial warranty to \$708,575.78.

Should you require further information, please do not hesitate to contact Johnna Gonzalez at 719-313-0447 or Johnna.Gonzalez@Newmont.com or myself at Katie.Blake@Newmont.com.

Sincerely,

DocuSigned by:
