Re: Extension Request Approval, Corrective Actions, Big "G" Gravel Pit, Permit File No. M-2006-081

Dear Mr. and Mrs. Gaudreault,

On November 9, 2023, the Division of Reclamation, Mining and Safety (DRMS/Division) received Daniel J. and Barbara J. Gaudreault's request (via email from Ellen Lay) to extend the deadline for the corrective action "Tamarisk (salt cedar) trees are present within the pit of the western Phase I area and are becoming established. This is a problem for failure to employ weed control methods for a state listed noxious weed species within the permitted area, and to reduce the spread of weeds to nearby areas as required by Section 3.1.10 (6) of the rule." cited during the February 2023 inspection for the Big "G" Gravel Pit site. The request was for an extension from the current due date of November 11, 2023, to December 31, 2023. **The Division hereby approves the extension request. The new due date for this problem is set for December 31, 2023.**

If you need additional information or have any questions, please contact me by telephone at (720) 836-0967, or by email at amber.gibson@state.co.us.

Sincerely,

Amber M. Gibson
