**Re: Additional Information Required No. 2, Annual Groundwater Level Data for 2023,
Goose Haven Reservoir #2 – Complex Expansion, Permit No. M-2010-071**

Dear Ms. Asquith:

On November 13, 2023, the Division of Reclamation, Mining and Safety (Division/DRMS) received your responses to the Division's letter dated October 27, 2023 requiring additional information for the Annual Groundwater Data for 2023. After review of the submission the Division has additional items that need to be addressed or clarified.

1. When was P-3R drilled and installed? The Operator needs to submit to the Division the boring log and well completion report for P-3R.
2. Provide an explanation as to why the Division was not notified that P-3 and P-6, had been damaged and removed from service?
3. Prior to drilling and installing the replacement well for P-6 the Operator needs to submit a Technical Revision, for the Division's approval, depicting the location of the replacement well and any additional documentation is needed.

Please respond to these items within 14 days of the date on this letter, by **November 28, 2023**. The Division reserves the right to further supplement this document with additional items and details as necessary.

If you need additional information or have any questions, please contact me by telephone at 303-866-3567 x8114, or by email at patrick.lennberg@state.co.us.

Sincerely,

Patrick Lennberg

Environmental Protection Specialist
