Unfortunately the County has to hold a formally gazetted vote next Tuesday; the Commissioners hearing yesterday in open work session found lots of support for this project and no objections. We expect to have the signed Exhibit L Structures Agreement from the County now on Wednesday November 22nd by noon.

Consequently, although everything else should be to the Division by tomorrow, including new Exhibit G Right of Entry documents signed from the Swanson's and from Anders for our operations on the American Mine Parcel, MineWater LLC has to request, and hereby does request, a final extension of review through November 27th, 2023.

Thank you for your continued consideration of this application to conduct reclamation at the London Mine.
