Denver, CO 80203

Dear Tim Cazier,

Reference: Pikeview Quarry (M-1977-211) Technical Revision RE-22 Extension Request

In response to the Preliminary Adequacy Review of Technical Revision (RE-22) for the Pikeview Quarry operation (M-1977-211) received on October 9, 2023, Riverbend Industries (RBI) requests an additional extension to the review period for RE-22. RBI requests a 35-day extension. This extension is intended to provide the Colorado Division of Reclamation, Mining, and Safety (CDRMS) and RBI with the additional time needed to review the permit technical revision documents and address CDRMS comments. This extension changes the date of the decision of CDRMS from November 17, 2023 to December 22, 2023.

This request is intended to only extend the final decision date by 35 days to accommodate the necessary review of the technical revision documents; RBI does not waive the automatic approval provision provided in Construction Materials Rule 1.4.13(1).

Please do not hesitate to contact me or our Stantec consultant, Paul Kos, if you have any questions.

Regards,

Jerald Schnabel
