Hi, Garrett -

I want to check in on the corrective action for Varra Resources Project 110 (M1984-036). The current due date to submit a TR is 11/30/2023.

It might make sense to extend the date. I ask that you give me 5 days or more for my completeness review after you submit the TR.

Thanks,
Rob

Hi, Rob.

Thanks for reaching out on this. For the 110 site I think I'd like to ask for an extension past the holidays- specifically January 26th, 2024. We have a plan for setting up the clarification of the permit, but haven't been able to sit down and really dig in to it.

Please let me know if you agree with that timing or have any thoughts to the contrary.

I hope you have a great Friday and weekend!
