To: Graham Roberts <graham.roberts@trappermine.com>, Robin Reilley - DNR <robin.reilley@state.co.us>

Good Afternoon Mr. Roberts,

Please find the Divisions' Review of the October 2023 DMRs for Trapper Mine. DRMS noted no concerns.

Thank you

Re: Trapper Mine (Permit No. C1981-010)
Review of October 2023

Dear Mr. Roberts:

The Division has received and reviewed the October 2023 a Discharge Monitoring Reports (DMRs), including the chronic and acute WET testing results for the Trapper Mine. The DMR's were received electronically by the Division on 20 November 2023. Thank you for your timely submittal of this information. Trapper submits DMRs to the Division, in accordance with Rule 4.05.13(2)(a)(iii).

Trapper reported the following outfalls discharged in October

- Johnson System Pond #10, NPDS 001
- No Name Pond #5 NPDES 002

Trapper reported that none of the outfalls requiring acute monthly WET testing discharged. Monthly DMRs for discharging outfalls: 001 and 002, indicated that no parameters were exceeded.

The Division does not have any questions, concerns or further comments at this time. If you have any questions or need additional information, please contact me.

Sincerely,

Robin Reilley, M.S. GISP
Environmental Protection Specialist II
