

MINERALS PROGRAM INSPECTION REPORT
PHONE: (303) 866-3567

The Division of Reclamation, Mining and Safety has conducted an inspection of the mining operation noted below. This report documents observations concerning compliance with the terms of the permit and applicable rules and regulations of the Mined Land Reclamation Board.

MINE NAME: 10 Miles South Pit	MINE/PROSPECTING ID#: M-1978-066	MINERAL: Sand and gravel	COUNTY: Rio Grande
INSPECTION TYPE: Monitoring	WEATHER: Cloudy	INSP. DATE: November 20, 2023	INSP. TIME: 13:45
OPERATOR: Rio Grande County	OPERATOR REPRESENTATIVE: Patrick Sullivan	TYPE OF OPERATION: 112c - Construction Regular Operation	
REASON FOR INSPECTION: Normal I&E Program	BOND CALCULATION TYPE: None	BOND AMOUNT: \$0.00	
DATE OF COMPLAINT: NA	POST INSP. CONTACTS: None	JOINT INSP. AGENCY: None	
INSPECTOR(S): Todd Jesse	INSPECTOR'S SIGNATURE: 	SIGNATURE DATE: December 1, 2023	

GENERAL INSPECTION TOPICS

This list identifies the environmental and permit parameters inspected and gives a categorical evaluation of each. No problems or possible violations were noted during the inspection. The mine operation was found to be in full compliance with Mineral Rules and Regulations of the Colorado Mined Land Reclamation Board for the Extraction of Construction Materials and/or for Hard Rock, Metal and Designated Mining Operations. Any person engaged in any mining operation shall notify the office of any failure or imminent failure, as soon as reasonably practicable after such person has knowledge of such condition or of any impoundment, embankment, or slope that poses a reasonable potential for danger to any persons or property or to the environment; or any environmental protection facility designed to contain or control chemicals or waste which are acid or toxic-forming, as identified in the permit.

OBSERVATIONS

This inspection report was conducted as part of the normal monitoring program established by the Colorado Division of Reclamation, Mining and Safety's Active Mines Program. The 10 Mile South Pit is a 112c Operation operated by Rio Grande County Road and Bridge. The site is located approximately 10 miles south of the town of Monte Vista, CO at an elevation of approximately 7750 feet. The site consists of 26.5 acres to be reclaimed for the post mine land use of wildlife habitat. Pursuant to Rule 4.1.2(2) no financial warranty is held for the site. Patrick Sullivan, a representative of Rio Grande Road and Bridge, was present for the inspection.

The proper mine identification signage was posted at the entrance to the site. Permit boundaries are clearly marked with fence line. The site was not active at the time of the inspection and no mining/processing equipment was present. There are no on-site support facilities or hydrocarbon storage of any kind. The site acts as an intermittent source of material for Rio Grande Road and Bridge for projects on the southern end of Rio Grande County. Equipment is brought to site when there is a need to mine and process more material.

Mining has been conducted according to the submitted plan. Material was extracted at approximately reclamation grade resulting in no highwall on site. The side slopes of the pit are stable and well vegetated with volunteer species - showing no signs of erosion or slumping. The pit floor has multiple stockpiles of various sized materials both processed and unprocessed. In addition to product stockpiles there is also a topsoil pile on site. There appears to be an adequate amount of topsoil stockpiled for the permitted reclamation plan. All stockpiles are protected by volunteer plant species and appear stable. No state listed invasive species were identified on site during the inspection. No water is present in the pit floor.

Photos that show the conditions observed during the inspection are included at the end of this report.

No problems or violations were noted or observed during the November 20, 2023 inspection.

All responses to this report should be directed to Todd Jesse with the Division's Active Mines Program at DRMS, Room 215, 1001 E 62nd Ave. Denver, CO 80216. Direct contact can be made at the Division's Grand Junction Field Office, by phone at 720-688-0626 or by email at todd.jesse@state.co.us.

PHOTOGRAPHS

View to the south showing proper Mine ID signage posted at the entrance.

View to the south showing fence line that marks the eastern permit boundary.

View to the west showing the southwest corner of the permit boundary. The fence line marks the permit boundary.

View to the southeast showing the mining area of the pit. Material is extracted at reclamation grade.

View to the southwest showing an overview of the pit. No evidence of exposed ground water

View to the west showing material stockpiles on the pit floor.
