Fort Morgan, CO. 80701
Morgan County

Annual Report

Morgan Sand & Gravel stripped off around 10,000 yards of overburden in phase 2 And all of phase 4, some of phase 1 on the South end of pit. MS&G crushed around 250,000 ton of Class 6 base with 83,000 ton of that amount going to Class 7 base. All of Class 7 base is in A stockpile in phase 1. Most of Class 6 was sold for different jobs .

MS&G will crush around not as much in 2024 just depends on different jobs that come in. We are to the property line on phase 4 so in the proses of purchasing land. Looking at around 25-30 acers to the North and East.

Going to try and reseed some of the pit on the West side. Have and see if weather will Help out.

The Green lines on map show the arear we crushed this year
Burde

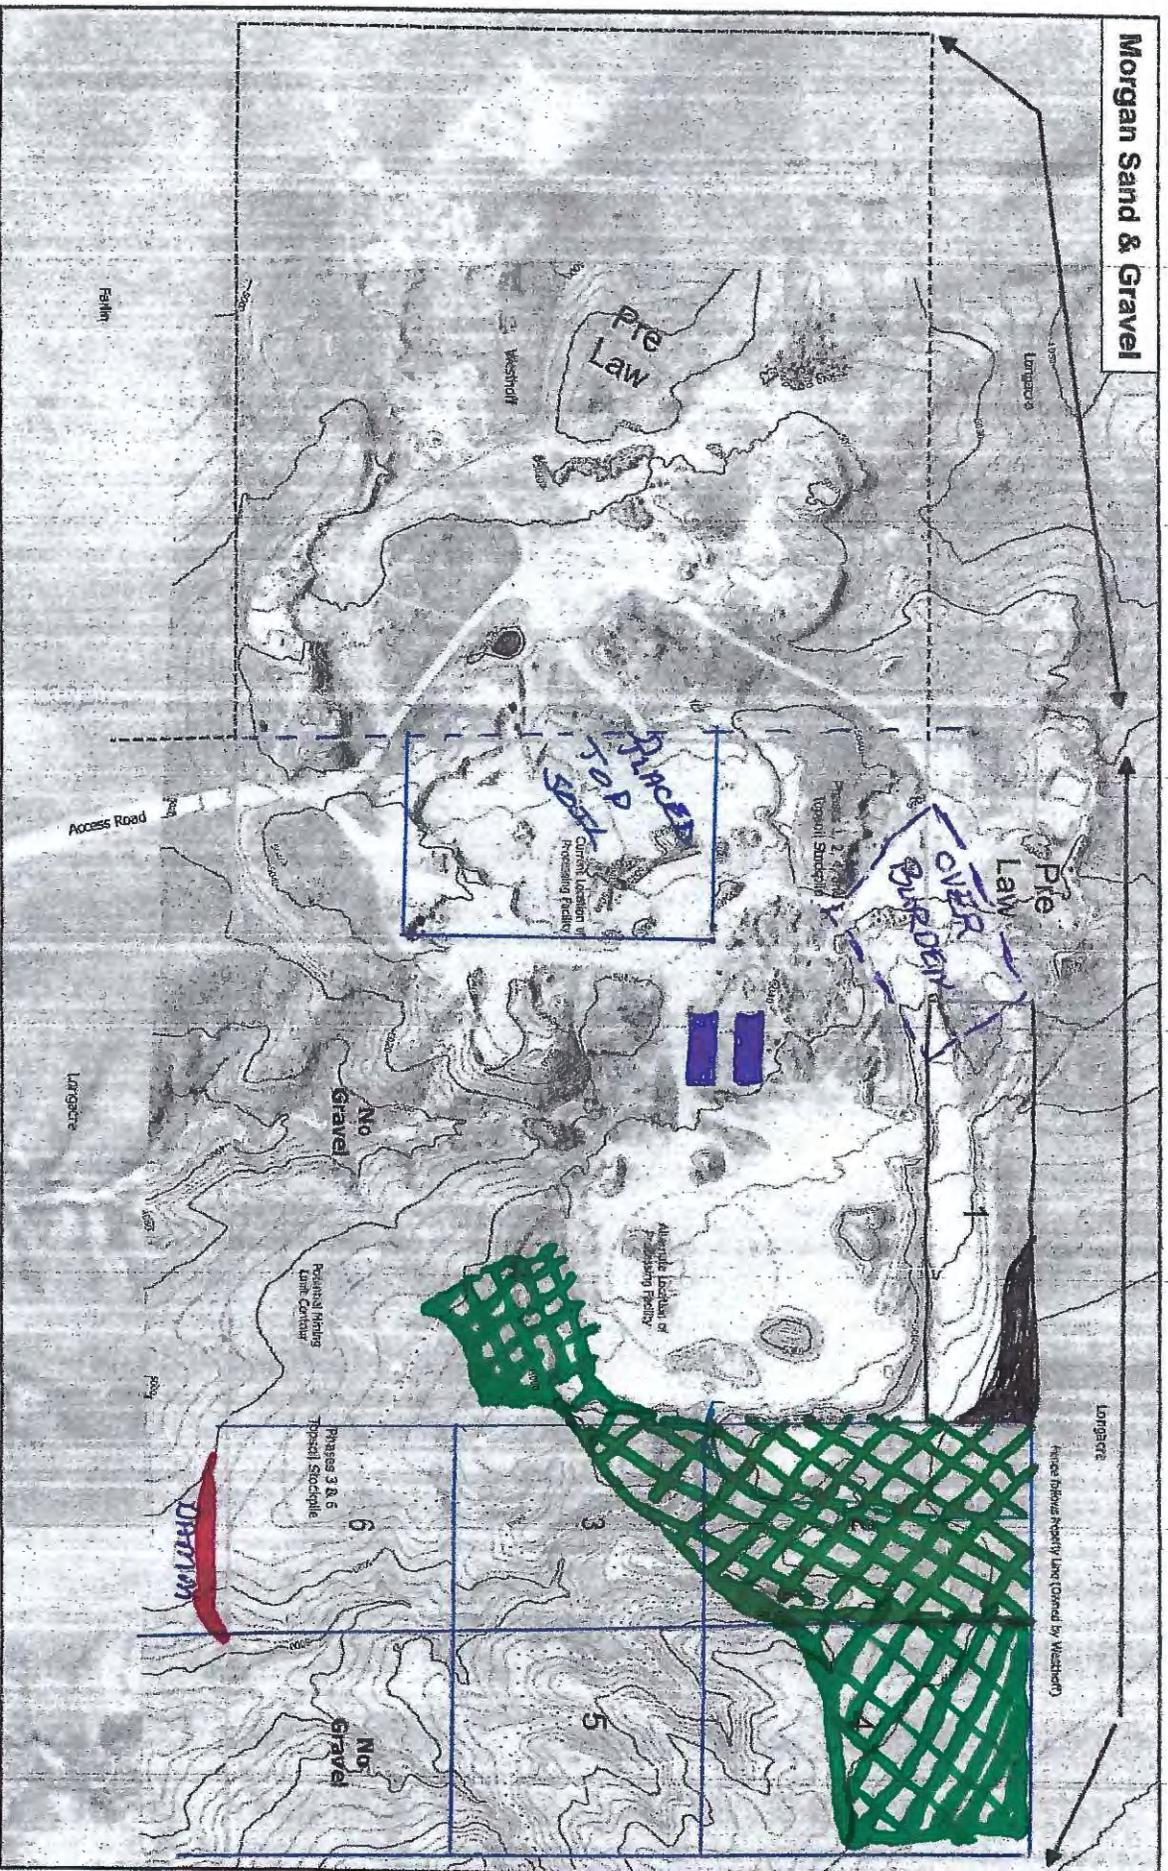

All Top Soil and Overburden was seeded

Respectfully, Morgan Sand And Garvel
