Hi Jodie,

I am in receipt of the letter from Mr. Kirkland withdrawing the request for Temporary Cessation. In order to maintain the status 'Active' status of the Midway Pit, the Division will require a detailed description of the mining operations that are to resume. Please note that any resumption of mining activities must be legitimate in nature considering the scale of the mining operation and advances the mining operation or final reclamation. Upon receipt and review of the additionally requested information, the Division will withdraw the request for Temporary Cessation from the Board's December agenda. Feel free to contact me if you have any questions.

Regards,

**Michael Cunningham**  
Acting Division Director**COLORADO**  
Division of Reclamation,  
Mining and Safety  
Department of Natural Resources

Good afternoon, Tim and Michael.

I have been working with Baxter Kirkland on the second TC request for the Midway Pit M1988-018.

Midway Aggregates would like to notify DRMS of the continuation of mining at the site. Please see the attached notice.

Additionally, this site was scheduled for a second TC hearing on December 13th. Midway Aggregates would anticipate that this hearing would no longer be necessary due to the mining activity.

Please let us know if there are any questions or if there will still be a need to attend the meeting on the 13th.

Thank you for your time and attention to this matter.
