RE: Meeker Pit, Permit No. M-1976-038, Inspection Problem Abated

Dear Ms. Conrado:

On November 22, 2022 the Division of Reclamation, Mining and Safety (Division) conducted an inspection of the above referenced site. General Compliance with Mine Plan was cited as a problem because the current plan was out of date and no longer reflected the current operation. Corrective actions required you revise the Mining and Reclamation Plans by the corrective action date.

On December 13, 2023 the Division approved AM-3 which updated the Mining and Reclamation Plans. This satisfies the corrective action and it is considered abated.

If you require additional information, or have questions or concerns, please feel free to contact me.

Sincerely,

Amy Yeldell
