**RE: Bollish Pit #2 - File No. M-2007-013,
Surety Release Request Application (SL-1)
Full/Final Release**

Dear Jeff Harms:

On December 18, 2023, the Division of Reclamation, Mining and Safety received your 112c Construction Materials Reclamation Permit Surety Release Request application for the Bollish Pit #2, which is located in Logan County. Preliminary review of the information received determined that the following additional information must be received before the Division can consider your application complete and technical review can begin. Thus, your application is incomplete for the purposes of filing as of December 18, 2023.

Pursuant to Rule 4.17.1, the application requires a phone number for the surface landowner. Additionally, the address listed does not match county assessor information. Please revise the application with the correct information for the surface landowner and resubmit the form to the Division.

You have thirty (30) days from December 18, 2023 to submit all necessary documents that the Division needs for the application to be considered filed. If, at the end of the thirty day period, the application has not been determined to be complete and filed, the Division may deny the application and terminate the application file.

This letter shall not be construed to mean that there are no other technical deficiencies in your application. The Division will review your application to determine whether it is adequate to meet the requirements of the Act after submittal of all required items.

If you have any questions, please contact me by telephone at 303-866-3567 x 8126, or by email at nikie.gagnon@state.co.us.

Sincerely,

Nikie C. Gagnon
Environmental Protection Specialist
