To: David Kotz &lt;DaveK@sgm-inc.com&gt;, Robin Reilley - DNR &lt;robin.reilley@state.co.us&gt;

Thank you for the clarification David,

I will take that information into consideration as I follow up on the request.

Robin,

I'm not sure what info Deb provided to you but attached is the form that was uploaded in the Town's renewal. The revision requested is for the Town to be able to use the sand and gravel material on Town projects wherever needed within Town limits. Peter Hays thought our response to Section 6.4.4 (g) of the permit application limited use to River Run Resort and thus the technical revision is needed.

Section 6.4.4 (g) is repeated below:

- (g) Identify the primary and secondary commodities to be mined/extracted and describe the intended use; and
- [Sand and Gravel and reclamation material are the primary and secondary commodities that are mined/extracted. The commodities will be used in the development of the Sun Communities River Run Resort.](#)

The Town's response is true but I guess it should have stated " The commodities will be used in the development of Sun Communities River Run Resort and on various Town projects within the corporate limits of the Town of Granby. No material will be sold to the public."

Hope that helps clarify the Town's intentions and gets us started .

Thank you,

**David M. Kotz, PE, CFM**

You requested a technical revision. No exhibits were attached and no narrative of what the technical revision entails was included. So it is very difficult for me to guide you as your intentions for this permit are unknown to me.

Robin,

What will the town need to do for this permit?

Thank you,

Hi Dave - I received a call from Robin in reference to the above that you asked me to submit. She doesn't have enough information. Please email her to find out what you will need to do for this Permit.

Thanks!
