**RE: King Coal Mine, Permit No. C-1981-035**  
**3<sup>rd</sup> Quarter 2023 Discharge Monitoring Reports Review**

Dear Mr. McCourt,

The Colorado Division of Reclamation, Mining and Safety (the Division) has finished reviewing the 2023 3<sup>rd</sup> Quarter Discharge Monitoring Reports (DMRs). The monitoring reports were received by the Division on October 27, 2023. The Division finds the reports to be in compliance with the following Rules:

- **Rule 4.05.13(2)(i)** – Samples are measured accurately and record the quality and quantity of the water discharged from the permit area.
- **Rule 4.05.13(2)(ii)** – There are three outfalls associated with the COG850001 permit; Outfall 001, Outfall 002 and Outfall 003. During the months of July, August and September Outfalls 001, 002 and 003 did not discharge. Therefore, no exceedances occurred.
- **Rule 4.05.13(2)(iii)** – Discharge Monitoring Reports are received on a quarterly basis and filed with the Division within 90 days of the sample collection.

This concludes the Division's review of the 2023 3<sup>rd</sup> Quarter Discharge Monitoring Reports. If you have any questions, please contact me at (303)-866-3567 x8185.

Sincerely,

Clayton Wein
