Hi Joel.

Please find attached to this email a copy of the Division's approval notice for the Succession of Operators application (SO1) and the Surety Reduction Approval (SR-2) for the Worthing Pit, permit no. M-1977-526. Henderson Aggregate Ltd is now the permittee for this operation.

Please reach out to me if you need assistance with any other permitting actions.

Best regards,

Nikie Gagnon

Subject: Re: Worthing structure agreements

Hi Joel.

Thank you for sending in the requested documents. I will review them today and check with Sara to confirm she has everything she needs to approve the SO.

Nikie,

Attached is the submittal for structure agreements, proof of mailing and engineering assessment. If you could possibly complete successor by Friday that would be fantastic. If not, this can be sorted out later too. Either way works.

Thanks, Joel

Re: Worthing Pit, Permit M-1977-526, Succession of Operators Approval, Revision SO-1; Surety Reduction Approval, SR-2

Dear Albert Frei, Jr:

On January 11, 2024, the Division of Reclamation, Mining and Safety approved the succession of operators from Albert Frei & Sons Inc. to Henderson Aggregate Ltd for this operation. Henderson Aggregate Ltd is now the permitted operator of the Worthing Pit, and as such, is responsible for all provisions in M-1977-526, as well as those specified in the Rules and Regulations. Albert Frei & Sons Inc. is relieved of all responsibilities concerning this operation.

Please Note:

1. All of the application materials, as amended and supplemented, are an integral part of your permit. They have been incorporated into the permit by reference. We presume that you have a copy of all of these materials; therefore, none have been enclosed with this mailing. We suggest that you keep a copy of the permit and the permit application at the mining operation as a reference for operation personnel, to help ensure compliance with the terms of the permit.
2. Changes in the mining and reclamation operations that differ from those described in the permit may require a modification to the permit. We suggest consulting the Rules and Regulations and/or contacting us to determine if a modification to the permit is necessary. Rule 1.10 pertains to Amendments, Rule 1.9 to Technical Revisions, and Rule 1.11 to Conversions.
3. On your permit anniversary date each year, you must submit an annual fee and annual report to us. Please consult the Rules, Act, and your permit for specific requirements. Annual reports, maps, and fees must be filed electronically using the Division's ePermitting portal. If you have not done so already, you will need to sign up for electronic filing of your annual report, map, and fee by visiting the Division's web site (<https://drms.colorado.gov>) clicking on "ePermitting" on the home page, and then clicking on the "Sign up for Minerals Annual Report Electronic Filing" link.

The transfer of this permit does not result in the transfer of any other permits or licenses with this Division, the State, or Federal agency which might be associated with this operation.

Sincerely,
