**Re: Permit No. M-1980-244; Cripple Creek & Victor Gold Mining Company; Cresson Project;**  
**Technical Revision 140 Extension Request – VLF2 Phase 3, Stage 2A Record of Construction**  
**Report**

Dear Mr. Russell:

Newmont Corporation's Cripple Creek and Victor Gold Mining Company (CC&V) hereby requests a 2<sup>nd</sup> extension to the decision date for Technical Revision 140 submittal from January 15, 2024 to January 24, 2024 in order to allow DRMS adequate time to review the Record of Construction report which was submitted on November 15, 2023.

The first extension was submitted on December 13, 2023 and extended to January 15, 2023 in order to allow DRMS additional time for review. CC&V has the Engineer of Record on stand-by to address the comments once received in order to respond to adequacy review as quickly as possible.

The approval of the VLF2 Phase 3 Stage A.2 is a critical path for execution of the CC&V business plan and without this approval before January 31, 2024, the business will be negatively impacted.
