Re: Additional Information Required, Fourth Quarter 2023 Groundwater and Surface Water Monitoring Report; Gold Hill Mill, Permit No. M-1994-117

Dear Mr. Langenfeld:

On January 19, 2024, the Division of Reclamation, Mining and Safety (Division/DRMS) received the Fourth Quarter 2023 groundwater and surface water monitoring report for the Gold Hill Mill. After review of the submission the Division has an additional item that needs to be clarified.

1. On the cover page it states the report is submitted for the Gold Hill Mill (M1994-117). However, a review of the included data shows it contains the sample information and results for the Cash & Who Do Mines (M1983-141). It appears the submission was for the Cash & Who Do and Gold Hill Mill permits. Please update and resubmit the cover page if it was to include the Cash & Who Do Mines permit.

Please respond within 30 days of the date on this letter. **The due date is February 21, 2024.** The Division reserves the right to further supplement this document with additional items and details as necessary.

If you need additional information or have any questions, please contact me by telephone at **303-866-3567 x8114**, or by email at patrick.lennberg@state.co.us.

Sincerely,

Patrick Lennberg
Environmental Protection Specialist
