**RE: King Coal Mine, Permit No. C-1981-035
4th Quarter 2023 Discharge Monitoring Reports Review**

Dear Mr. McCourt,

The Colorado Division of Reclamation, Mining and Safety (the Division) has finished reviewing the 2023 4th Quarter Discharge Monitoring Reports (DMRs). The monitoring reports were received by the Division on January 30, 2024. The Division finds the reports to be in compliance with the following Rules:

- **Rule 4.05.13(2)(i)** – Samples are measured accurately and record the quality and quantity of the water discharged from the permit area.
- **Rule 4.05.13(2)(ii)** – There are three outfalls associated with the COG850001 permit; Outfall 001, Outfall 002 and Outfall 003. During the months of October, November and December Outfalls 001, 002 and 003 did not discharge. Therefore, no exceedances occurred.
- **Rule 4.05.13(2)(iii)** – Discharge Monitoring Reports are received on a quarterly basis and filed with the Division within 90 days of the sample collection.

This concludes the Division's review of the 2023 4th Quarter Discharge Monitoring Reports. If you have any questions, please contact me at (303)-866-3567 x8185.

Sincerely,

Clayton Wein
