**RE: Permit No. M-1980-047, Colony Shale Oil Project, Inspection Problem-Corrective Action
Extension Request Approval-1**

Dear Mr. Seymour:

On October 23, 2023 the Colorado Division of Reclamation Mining and Safety (Division) inspected the above-mentioned pit. Reclamation was cited as an inspection problem. Corrective actions required you to submit a Technical Revision (TR) to revise/update the Reclamation Plan to reflect existing and proposed activities. This information was originally due on February 5, 2024. On February 5, 2024 the Division received an extension request to allow the Operator more time to prepare the Technical Revision given the difficulty accessing the site to collect field data in the winter. Your extension request is approved. Required corrective action documentation is due by **May 5, 2024**.

If you require additional information, or have questions or concerns, please feel free to contact me.

Sincerely,

Amy Yeldell
Environmental Protection Specialist
