Re: Partial Approval, Request for Modification to Water Sample Collection Frequency and Locations, Technical Revision 14 (TR-14), Cross Gold Mine, Permit No. M-1977-410

Dear Mr. Takami:

On January 31, 2024, the Division of Reclamation, Mining and Safety (Division/DRMS) received your request for Technical Revision 14 (TR-14) for Modification to Water Sample Collection Frequency and Locations for the Cross Gold Mine, permit no. M-1977-410.

On February 5, 2024 the Division partially approved TR-14 addressing the request to change the sampling frequency at the site from monthly to quarterly.

The Division's partial approval of TR-14 does not include an approval to reduce the number of sampling locations from seven (7) locations to one (1) location.
