Sorry for late response. We are good with the dirt piles in the center of the property.

I'm going to take a close look at the dirt piles today to make sure there are no concerns. I sent out a summary internally to Martin folks yesterday and should have a final answer for you tomorrow.

**EXTERNAL SENDER – PLEASE ASSESS AND VERIFY**

Hi Joel.

I'm following up on the 100th Ave. site in Adams County, Permit No. M-1999-034. As you know, Holcim has applied for a release of 34.02 acres. I conducted an inspection and reclamation is complete per the approved technical revision (TR6) and the list in your email below. Please confirm that Albert Frei would like the stockpiled material to remain in the center of the property for future industrial use.

Kind regards,

**Nikie Gagnon**

Good morning Nikie,

Would DRMS be amenable to releasing this part of Holzer site (100<sup>th</sup> Ave/Brighton Rd) as is? Ben and I would be good with this.

Holcim would still need to:

- seed this area and the south slope east of this location
- relocate the power lines
- make stormwater improvement
- seed along Bull Seep

Joel
